

Bosio Metal Specialties Inc.

409 Industrial Dr.

North Wales, Pennsylvania 19454

FOR IMMEDIATE RELEASE:

## BOSIO SELECTED TO BE AUTHORIZED DISTRIBUTER OF METRO PRODUCTS

Bosio Metal Specialties Inc. of North Wales, Pennsylvania, has been selected as an authorized InterMetro Industries wholesale dealer. This unique opportunity allows Bosio to support pharmaceutical cleanroom projects beyond their custom stainless steel fabrications.

Bosio Metal Specialties, established in 1925, has been servicing the pharmaceutical industry since the early 1970s, providing conceptual design and fabricated equipment for cleanroom use. InterMetro Industries provides wire shelving, racks, lab furniture and workstations used in many industries. This relationship becomes a turnkey purchase point for procurement departments and end users alike. This unique buying power is passed on to the purchaser with much lower costs than resellers offer.

Bosio can now support purchases of standard InterMetro laboratory furniture and equipment and also offer the custom design stainless steel products that they manufacture. This winning combination of the vast number of products that InterMetro offers and over 30 years of cleanroom equipment design and fabrication from Bosio will make customers project sourcing easier.
